

Current COVID-19 Policies

Updated: 04/04/2024

- Masks for patients and staff are optional. While we no longer require masks for entry, please be kind to those who choose to wear a mask.
- If you are uncomfortable not wearing a mask and would prefer our staff to wear one while working with you, you can request that we wear a mask.
- If you are positive for COVID-19, we ask that you reschedule your appointment if you are symptomatic. If you have no symptoms or fever after 24 hours you are okay to come to your appointment.
- Disinfecting procedures will be followed before and after every patient encounter using CDC recommended cleaning agents.
- All eyeglass frames that are handled are disinfected prior to re-displaying them.
- Direct shipping is available on all products with a shipping fee depending on the product.
- We have an online payment option on our website to allow patients to pay their bills from home.
- Telehealth visits are still available as needed.

*You can always go to the CDC's website to view any updates on COVID-19 and similar viruses.
